

# Tobacco

Revelstoke Youth Drug Survey 2017

Better information. Better support.

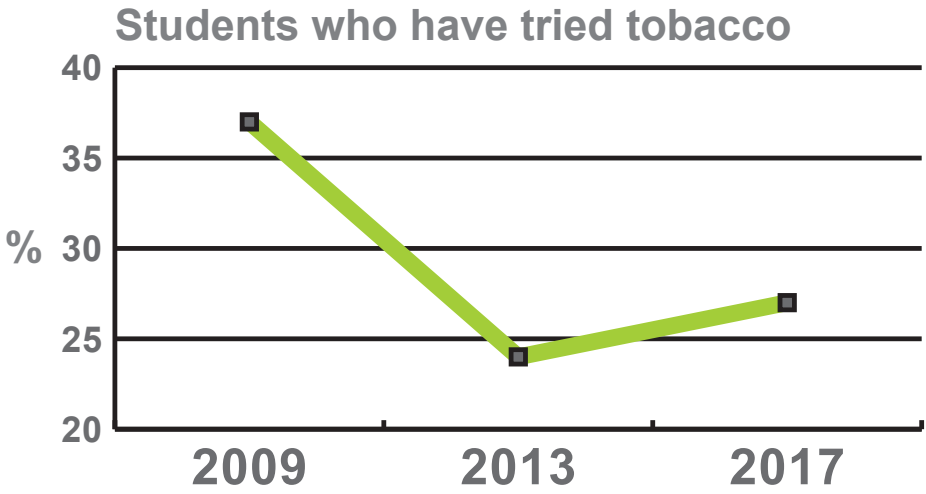

305 student responses (84%)

Over  
**1/4**   
reported trying  
tobacco products

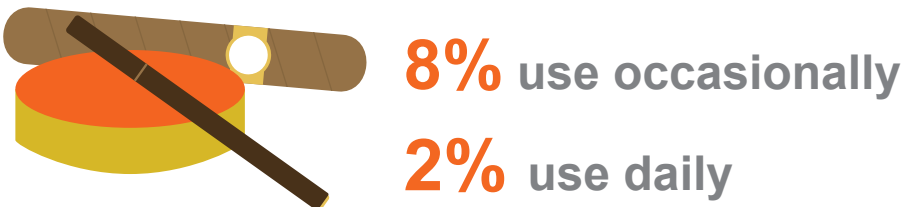

**85%** thought their parents would be concerned if they used tobacco

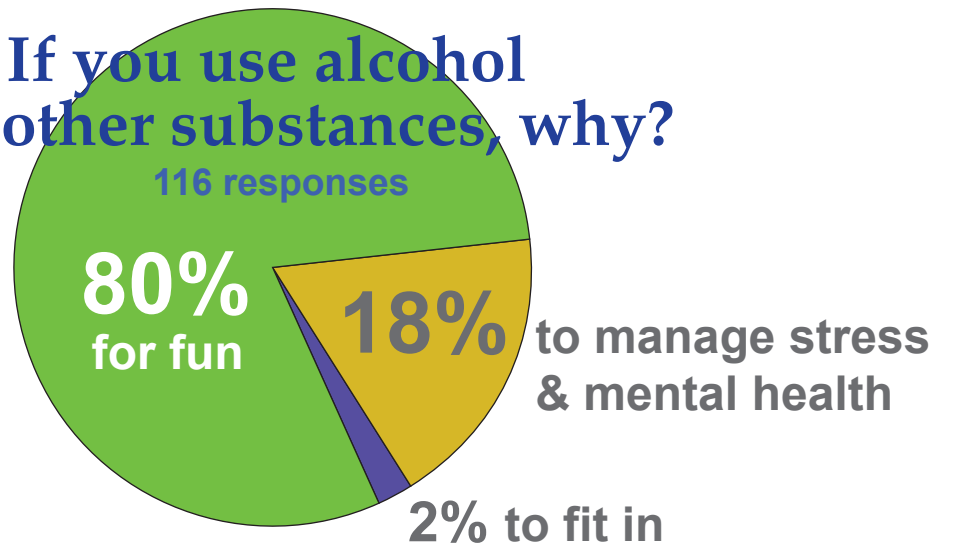

**29 students** were interested in quitting or cutting back

Students' use of cigars, 'little cigars', snuff or chewing tobacco

If you use alcohol and other substances, why?

Concerned?  
Contact your health care provider or school counsellor.

Data collected 2009, 2013, 2017
